About Us

About FairVote

info@fairvote.org

FairVote is a nonpartisan organization working for better elections for all. We research and advance voting reforms that make democracy more functional and representative for every American, with a focus on two key reforms: ranked choice voting and the Fair Representation Act.

Through our research and advocacy, we are making the case for reform at the federal, state, and local levels and empowering state and local allies with the resources they need to drive reform in their communities. Working together, we've already made ranked choice voting the fastest-growing nonpartisan voting reform in the nation.

About My Work

VotingSite@gmail.com

In 1990, John Chamberlin, and Samuel Merrill each encouraged me to use their research, cited on page 63, to support a hybrid Condorcet-RCV tally. (See page 30.)
In the 1990s, I created *PoliticalSim*™ and *SimElection*™. They compared 30 single- and multi-winner tallies and were used in a few universities. (See pages 48-56.)
My sim research led to *Democracy Evolves*[11] in 1997. Then I helped FairVote as a webmaster and librarian. For over ten years, I've advised groups developing the use of Fair Share Voting. (See pages 24, 43 and 46.)
This booklet summarizes *Accurate Democracy.com*.[12]

Goals: Make excellent policies. (See pages 9 and 61.)
Give more incentive to work together for better harmony even in diverse communities. (See 24, 27, 33-35 and 54.)
